The Seven Sleepers of Ephesus The seven sleepers of Ephesus were Constantine, Dionysius, John, Maximian, Malchus, Martinian and Seraplon, seven young men, converts to Christianity, who during the persecu-tion of Christians under the Emperor Decius, A. D. 250, refused to bow be fore an idol set up by the emperor at Ephesus. The story goes that they fied to a gave in Mount Cellon and that Declus, in his rage, ordered all caves in that mountain to be sealed up. Nothing was heard of them for 230

years, when they were discovered by ome workmen who were digging foundations. Awaking from their long sleep, they offered coins of such antiquity that the attention of the authorities was attracted. They did not long survive and their bodies were taken for burial in a large stone coffin to St. Victor's church, Marseilles.

Strength of Treasury Notes. A single treasury note measures three and one-eighth inches in width by seven and one-fourth inches in length. It will sustain, without breaking, lengthwise, a weight of fortypounds; crosswise, a weight of ninety-one pounds. The notes run four to a sheet, a sheet being eight and one-fourth inches wide by thirteen and one-half inches long. One of these sheets lengthwise will suspend 108 pounds and crosswise 177 pounds. It will be noted that a single note is capable of sustaining, crosswise, a weight of ninety-one pounds, which is twice the amount by nine pounds of the weight the note can sustain lengthwise, while in the case of the sheet, the crosswise sheet lacks thirty-nine pounds of double the sustaining power of the lengthwise sheet.

Napoleon's Pirst Cause, Mud. That man is made of mud by spontaneous generation under the sun's heat was the deliberate opinion of Napoleon, first of the moderns, if General

Gourgaud can be believed. Referring to ancient civilisations in the east, Napoleon one day said to

"All this leads me to think that the world is not so very old, at least, as inhabited by man, and within one two thousand years I am disposed to accept the chronology appended to the sacred writings. I think that man was formed by the heat of the sun acting upon mud. Herodotus tells us that in his time the slime of the Nile changed into rats and that they could be seen in process of formation."

Cerberus' Three Heads. The most famous of dogs is Cerberus who watches the entrance to Tartarus. He has three heads, but Hercules dragged him to earth and Orpheus put him to sleep with his lyre. The original dog cakes were given to Cerberus by the sibyl who led Æneas through hell.

They were made of flour and seasoned popples and honey. He must have been an oplum flend, as the celestial drug is made from popples. A "sop to Cerberus" was one of these cakes given to the monster by Greeks and Romans as a bribe to let them in hout molestation.

The Chequers inn at Slapstones, near Osmotherly, must be unique among English inns in one respect. It boasts of a fire which for more than a cen-

Always on the Watch. Children have ears like the very spies of nature itself—eyes that penetrate all subterfuge and pretense. It is good to set before them the loftiest ideals that have lived in human reality, but the best ideal of all has to be portrayed by parents in the realities of home life at When you are not watching and the children are—that is when the lessons are learned for life.

Caustic Whistler.

James MacNelll Whistler is said once to have confronted Oscar Wilde-at the height of the aesthetic movement with Du Maurier, who was satirizing the Postlethwaites in Punch with all his might, and to have genially inquired, "Which of you two invented

In Greenland the candlefish is used as a lamp. It is about six inches long and burns for fifteen minutes.

# **JACKMAN RESIGNS PRESIDENCY** OF FAIRFIELD COUNTY ANTI TUBERCULOSIS ASSOCIATION

Says that There Is No Friction, But that More Work Was Imposed Upon Him by Medical Members Than He Could Do.

Dr. Haskell Declares that the Association Will Build a Sanitarium Regardless of the Fact that the State Will Build One in This County.

President George W. Jackman has signed from the presidency of the Fairfield County Anti-Tuberculosis Society. The resignation was sent to the executive committee two weeks ago and at a meeting of the committee held today it was decided by the members that the president could not resign to them as the board of directors were the only branch of the organization that could take action upon the

resignation.

It was decided to bring the resignation of the president before the board of directors within the next two weeks. At the same meeting the executive committee will ask the directors to take steps toward the purchase of land for the erection of a sanitarium in this

It is hinted that the reason of Mr Jackman's resignation is that the med-ico members of the society were mapping out work enough for a half dozen men of Mr. Jackman's splendid ability and expected him to make

President Jackman said today: "I have resigned because the duties are too great and too much is expected of the president. I have been added to several committees and now that they are going to build a sanitarium they were about to put it up to the president to raise the money for this work. When I accepted the position I was given to understand that there would not be much to it. But I find that if I do the work and do it right I am obliged to neglect my own private business. I want it understood that there was no friction and that all is harmony in the organization."

A Farmer reporter talked with one President Jackman said today:

A Farmer reporter talked with one of the directors of the society this morning. The latter said that he did not blame President Jackman for getting out if the society intended to build a sanitarium in this county be-sides the one the State is going to build. He thought the money could be used to better advantage in aiding the State institution and carrying on

relief work.

Dr. C. N. Haskell, member of the executive committee, said this afternoon that it was true that the Fairfield County Society intended to have a sanitarium and conirol the same iranging the State might

woman who was sent to the State asylum for the Insane at Middletown a

hame looms up.

This particular John Smith will loom
even larger in the public mind—he has always loomed up big in the public prints—in the days to come, for he has always loomed up big in the public prints—in the days to come, for he has always loomed up big in the public prints—in the days to come, for he has always loomed up big in the public prints—in the days to come, for he has always loomed up big in the public prints—in the days to come, for he has always loomed up big in the public prints—in the days to come, for he has always loomed up big in the public prints—in the days to come, for he has always loomed up big in the public prints—in the days to come, for he has always loomed up big in the public prints—in the days to come, for he has always loomed up big in the public prints—in the days to come, for he has always loomed up big in the public prints—in the days to come, for he has always loomed up big in the public prints—in the days to come, for he has always loomed up big in the public prints—in the days to come, for he has always loomed up big in the public prints—in the days to come, for he has always loomed up big in the public prints—in the days to come, for he has always loomed up big in the public prints—in the days to come, for he has always loomed up big in the public prints—in the days to come, for he has always loomed up big in the public prints—in the days to come, for he has always loomed up big in the public prints—in the days to come, for he has always loomed up big in the public prints—in the days to come, for he has always loomed up big in the public prints—in the days to come,

less lawyer.

For sixteen years has John Smith honored this community with Ms presence. First he came as Mr. John Smith. Then he became Supt. John Smith of the erstwhile Bridgeport Elastic Web Co.'s plant. His move number three was to the Salt's Textile Co., where he was known to the immediate force under him as Johnny Smith Go. force under him as Johnny Smith. Go-ing up to five years ago the toils of official life lured him away from the factory and he became known as Pro-bate Clerk John Smith. So he has rebate Clerk John Smith. So he has re-mained during the intervening years till now he can proudly point to his latest and most important profix, At-torney John Smith. In a legal sense he has the privilege now of addressing his employer Probate Judge Nobbs as brother. Heretofore he could use that more than friendly term only in the fraternel sense for Brother Smith and more than friendly term only in the fraternal sense for Brother Smith and Brother Nobbs are shining lights in the noble order of Red Men. But whether, as Mister John Smith, Supt. John Smith, Foreman John Smith, Pro-bate Clerk John Smith, Brother John Smith or Attorney John Smith, he is in the future addressed, prospective clients will find him ever genial, trust-worthy, capable and like all members of his profession aways ready to point out to his clientele the silver lining concealed by the dark clouds. His experience in the probate court will enhance his utility as a lawyer. Other disciples of Blackstone who have pass ed the state examing committee are Horse M. Gray, Norwalk: Floyd Bell Bartram, and Albert Phillips, Stam-ford; John Robert Beecher, Redding, and Ralph E. Brush, Greenwich.

## CONTRACTS GIVEN **OUT FOR SEWERS**

Contracts were let today by Director F. A. Biltz for sewer construction to the Burns Co., for sewer on Noble avenue from East Washington to Bar-The Bridgeport gaelic football team added another victory to its string Saturday afternoon by defeating the Ansonia gaelic team, 11-8. The game was played at Steeplechase Island.

BASEBALL GAMES.

Heavy batting by the South Ends defeated the St. Josephs in a game played yesterday, the score resulting same company got 300 feet on Nor-man strete at 57 cents. The Lindley strete extension sewer running north-ward from North avenue, was not awarded, but the matter was laid on the table until the committee can decide whether it is to be a trunk line or a small sewer,

#### Deaths and Funerals,

The funeral of William J. Kelly was held at St. Charles church, this morning at 9 o'clock. Delegations from Court Nathaniel Wheeler, Foresters of America, and from the Third Division, A. O. H., were present. After the mass Miss Katherine Rean sang "Jerusa-lem." The pall bearers were Dr. Cremins, Phillip Armius, Patrick O'Leary, Michael Devin, Michael Roach, and Patrick Sullivan.

## F. W. SMITH JR. TELLS OF MISHAP

BERLIET CAR SKIDDED ON STEEP SIDE OF STEEPLY PITCHED HIGHWAY

Stevens-Duryea that we do give our beloved and trusty

Prof. Shepherd Sustained Fractured Skull, But Probably Will Recover-Smith, Curtis and the Chauffeur

interstate golf match held in Boston last Saturday the Stevens-Duryea touring car belonging to Roderick P. Curtis, of Southport and secretary of the Curtis & CurtisCo., and containing Mr. Curtis, Friend W. Smith, Jr. Prof. William K. Shepard of the Sheffield Scientific school faculty, and the chauffeur, George Waters, a brother of assistant city auditor, Henry J. Waters, was in collision at Westerly, R. I., with a Rhode Island machine. The occupants of the car were thrown out, but all escaped serious injury except Prof. Shepard who is believed to have sustained a fracture at the base of his

skull.

The Bridgeport party had left Wickford Junction and at about 10:30 a. m. were at a point about fourteen miles east of Westerly when a fifteen per cent. up-grade was met. The road at this point, although under state superfect. this point, although under state supervision, is but sixteen or seventeen feet in width and has a high crown with an unusual drop on either side, which makes it a dangerous task for two cars to pass each other. When about half ways up this grade a car was heard approaching from the rear, the driver of which kept tooting his horn, indicating his desire to pass the Stevens-Duryea. The latter crowded over to the right asc best it could and the Rhode Island car, a big Berliet, stripped for testing purposes, cleared it safely, but in trying to regain the center of the road the rear wheels skidded and striking the forward wheel of the and striking the forward wheel of the Stevens-Duryea forced it into the gut-ter and up the steep bank at the side where it struck a stone wall and top-pled over onto its side, facing the road Friend W. Smith, Jr., who occupied the left side of the tonneau, leaped the moment the machine swerved from its course, and rolling over several times in the road, arose uninjuerd. Directly in front of him sat Mr. Cur-

tis, who was thrown from the car when it struck the bank. He, too, was unhurt, except for a few minor bruises. unhurt, except for a few minor bruises.
Mr. Smith's companion in the tonneau
was Prof. Shepard, who, when the
impact of the Berliet car came, arose
and remained standing in a dazed
manner until the machine hit the wall,
when he was thrown out, striking his
head against the wall. George Waters,

head against the wall. George Waters, the driver, who was pinned in by the steering shaft, was cut about the face, but otherwise uninjured.

The testing car, which was in charge of George C. McMullen and Eden Nield, who are employed by the American Locomobile Co. of Providence, the makers of the Berliet car, immediately returned to the scene of the accident. Prof. Shepard was placed in the testing car and supported by a man standing in the rear, was carried to Westerly, R. I. Mr. Smith was carried to the same place in another Berliet

Berliet car and his companion. They at once returned to us and admitted that it was an error of judgment or their part in trying to pass us on such a road. They not only aided us by hurrying Prof. Shepard to Westerly, but later returned and assisted George Waters in caring for Mr. Curtis' car. The Berliet car was certainly not go-ing 25 miles an hour, but the same acing 25 miles an hour, but the same ac-cident would have happened had the speed been but ten miles an hour."
Mr. Smith then told how he with Mr Mr. Smith then told how he with Mr. Harris and Mr. Wing investigated the road at the point of collision, and by following the tracks made by the Stevens-Duryea, found that when the Providence car passed, Mr. Curtis' car was about two pencil lengths, or less than a foot, from the base of the bank to the right of the road, whereas the particular elected the left bank with Berliet cleared the left bank with more than three feet to spare. Further on the top of the road was rubbed off, showing where the test car had skid-

Prof. Shepard, in charge of two phy sicians, and Mr. Curtis and Mr. Smith left Westerly at 12:15 for New Haven where they arrived at 2:00 p. m. Prof. Shepard, who had remained conscious all the time, was at once burried to Grace Hospital where Dr. Baldwin, his family physician, and chief of staff of the hospital, made an examination of his injuries. Dr. Baldwin believes that Prof. Shepard has an excellent chance of recovery. Prof Shepard holds, it is said, the golf cham-pionship of Connecticut.

Mr. Curtis and his party had left Boston Saturday evening in a big Stevens-Duryea touring car, which has been in his possession only two weeks. They had that afternoon participated in a golf match at the Wallaston Country Club of Boston, as representatives of Connecticut against Massachusetts, a contest which they lost 11-4. Saturday night was spent at Providence, and an early start made on Sunday morning. All went well with the party until 10:30 a. m. when the accident oc-

#### **HEAT BRINGS** DEATH TO CIVIL WAR VETERAN

Milton G. Taylor, Aged 78, and on Furlough, Is Visiting Friends, When Heart Gives Out.

Milton C. Taylor, aged 78 years, a veteran of the Civil War, who resided at the Soldiers' Home in Noroton, while on a visit to friends named Os-borne on Vincellette Sfreet in this while on a visit to friends named Os-borne on Vincellette Street in this city, died this morning of heart fail-ure brought on by heat prostration. Mr. Taylor had enjoyed a furlough for a few days and had taken the occa-sion to visit the Osborn family in this city. He arrived Tuesday. The heat of last week told on the old veteran. Dr. A. A. Holmes was called and admin-istered stimulants. The veteran re-vived for a time, but soon relapsed vived for a time, but soon relapsed into his former condition. He is sur-vived by three sons, all residents of Norwalk.

#### Judge Doten's Estate

A Swiss watch maker has succeeded in turning out a watch less than an eighth of an inch thick, yet which is so good a time keeper that it varies less than five seconds in 24 hous.

An inventory of the estate of the late Charles A. Doten was returned to the Probate court this morning, showing real estate valued at \$6,920 and personal property valued at \$149.73. The deceased was the coroner of the county for many years.

#### Nighteap Privileges. HOWLAND'S Queen Mary's kindness took a very odd form in the case of the Earl of Sussex. He was a valetudinarian who

had a great fear of uncovering his head lest he should take cold. Ac-

granted his petition twice over. His patent for this privilege is perhaps unique in royal annals: "Know ye

presence of any other person or per-

sons within this realm or any other

place in our dominions wheresoever

shall be sufficient warrant in his be

during his life, and these our letters

Shocks From False Teeth.

"False teeth have been known to

enerate electricity in the mouth and

shock their wearer painfully," said a

dentist. "Only last week a gentleman

came to me and said he feared he was

getting a cancer on his tongue. 'Such

severe shooting pains attack me,' he

said, 'that often I utter loud oaths in

the most unseemly places at teas, be-

fore the minister, and so on. It is like knife thrusts. Do you think I am go-

ing to lose my tongue?' I found that

two different metals had been used in

metals, combining with the saliva, had

formed a small battery. Electricity

generated in the battery continually

and shock after shock was adminis-

al with an insulating varnish. There-

after the man had no more trouble."-

Origin of Dominos.

Two monks who had been committed to a lengthy seclusion beguiled the

dreary hours of their confinement with

a game played by showing each other

small flat stones marked with black

dots. By a preconcerted arrangement

the winner would inform the other

player of his victory by repeating in

per prayer. In process of time the two

ceration had expired the game was so

interesting that it was generally adopt-

ed by all the inmates of the monastery

as a lawful pastime. It very soon

spread from town to town and became

popular throughout Italy, and the first

line of the vespers was reduced to the single word "Domino," by which name the game has ever since been known.

Reasoning Power of Animals.

Men apparently conce've ideas from

"clear sky," but such genius could

on their part, they suddenly discover that they also are competent to do the

same thing, or, in other words, they begin to imitate. It is a general im-
